

Primary Sport Funding 2019/20

We at Twydall Primary School are committed to the physical development of all of our children. We are part of The Howard Sports Partnership and participate in a number of sporting competitions and events. Through this funding, we are able this year to fund the training and development of 2 sports coaches who are encouraging the development of many children. We know that this is having a positive impact on pupil skills, fitness, and sportsmanship.

We have this year, also allocated money to develop a range of House Competitions in line with our priority of developing pupil character and leadership.
